

The modern workplace, *re-imagined.*

Quiet, multi-purpose workspaces. *Anytime, Anyplace.*

www.Alcove.works

Meet Alcove.

We are experts in workplace organization, so that you don't have to be. Over the past few years we have meticulously fine-tuned our workspaces to fit your every office need. Offering you a sophisticated, flexible, multipurpose space on demand. *Anytime, Anyplace.*

A brand by ZenSpace

A thriving workplace, on demand.

Imagine a workplace that is specially designed to foster meaningful connections, inspire engaged teamwork, unleash a thriving workforce. One that revolutionizes productivity – one conference call, client pitch, team huddle at a time.

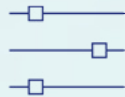

That's where Alcove comes in.

State of the art, custom-designed workspaces.

Ergonomics and Comfort

Durable, high-quality supportive foam seating and optimal table height enable long, comfortable work sessions.

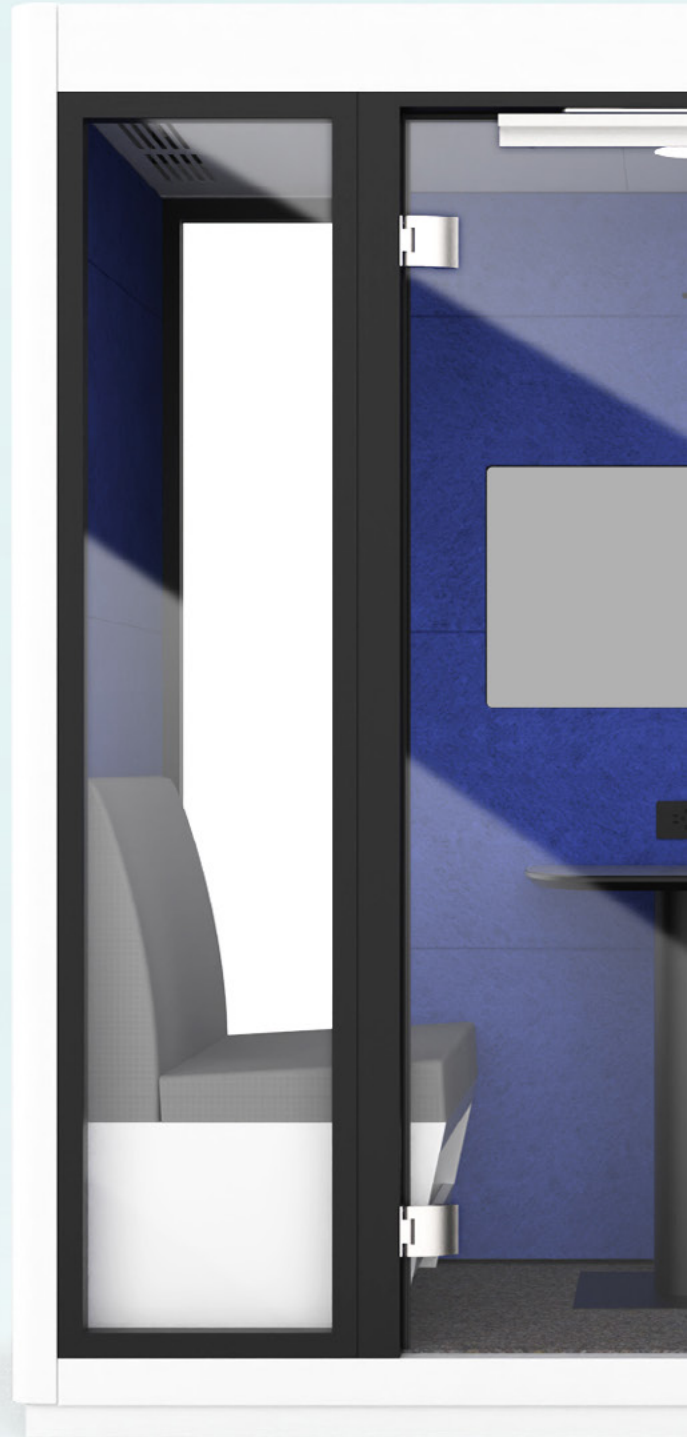

Customizable

Multiple colors, designs and features – including whiteboards and displays – to fit your every workplace need.

Lighting & Airflow

Lighting follows the GSA's recommendation for office spaces – 500 lumens in 6' x 6' area. Constant air circulation keeps you feeling fresh and alert.

Soundproofing

Double steel walls with sound insulation in between, laminated double pane glass and inner acoustic panels keep conversations within the pod and external noises out.

Easy Set Up & Mobility

Modular design and wheels offer flexibility and larger models offer 2, 4, or 6 person configuration. Same day assembly.

Sustainable

Designed and assembled in the USA and manufactured in China at a U.S. LEED Gold Level certified factory.

Quiet.
Multi-purpose.
Anytime, Anyplace.

Compliance & safety first.

Alcove pods have been designed with best-in-class materials, features and functionality to achieve complete fire, electrical, ADA, and seismic compliance - ensuring your ease of use and peace of mind.

Fire

Designed for fire resistance: enclosed and/or slatted roofs, roofs with sprinkler hoses or fire extinguishers, and CAL 117 compliant materials for walls, paint, seating and fabric.

Electrical

Engineered for UL electrical compliance: circuit breakers on the back of power cable ensures they connect to a power supply with ease.

Seismic

Built to resist seismic waves: robust materials maintain a strong grip on the floor for stability and structural integrity in the case of natural disasters and earth vibrations.

ADA

Custom-designed with modular elements: full retractable furniture, entrances without step-ups, and wide door frames ensure accessibility for all.

A space to *thrive*

In the hustle and bustle of an open office, Alcove provides a change of pace. Our pods offer a calm oasis where you can:

Boost productivity

Host conference calls, collaborate with colleagues or simply get work done in a fully equipped, quiet and private space.

Make yourself at home

Optimize your space for comfort with lighting and air control at the touch of a button.

Immerse yourself

Wirelessly project your screen onto a 4k 32-inch monitor while enjoying optional high-speed ZenSpace WiFi.

Work on demand

Discover and reserve a pod by the hour using ZenSpace mobile and web and touchscreen apps.
